## **ABSTRACT**

Tourism as we all know is very much a people based industry where one group of people serves other group of people. Therefore, significance of people is a factor that should be well acknowledged while designing and developing this website. In this micro-project, we would like to design a website for tourism in Pathanamthitta district. As there is good number of tourist places like Gavi, Peruthenaruvi, Aranmula, etc in this particular district, we could provide the website with details, location, how to reach with pictures so that people will find it interesting and would surely travel to these places.
